Agenda 2030: Enhancing action

A2 - Joining forces: Urban adaptation through linking local action to global policy
26th June 2019 - 14:00 - 13.30 - Room: S01-02

ICLEI Resilient Cities 2019
10th Global Forum on Urban Resilience and Adaptation
Bonn

Stephen Passmore Chief Executive Officer, Resilience Brokers

@StephenPassmore

Introduction to Resilience Brokers and the Trust

- UK group to speed up and scale up transformative urban/rural development;

- Operates in space between private, public, knowledge and civil society sectors;

- Leading experts foster **integrated-systems thinking** and **collaborative approaches**;

- Develop tools and demonstrators to support implementation of 2030 agenda in city regions;

- Open source, free-to-use tools - "**resilience.io**" integrated-systems modelling platform

- Data-driven, social and natural science based.

Implementation

resilience.io platform use cases

Greater Accra, Ghana	*Water supply, sanitation and accessibility*	
Hunter Valley, Australia	*Water infrastructure, energy transition, institutional resilience*	
Union Canal, Scotland, UK	*Water supply, sanitation and accessibility*	
Anninghe, Sichuan, China	*Integrated multi-hazard modelling*	
Queen Elizabeth Olympic Park, London, UK	*Digital and social inclusion, green space accessibility*	

Additional Resilience Brokers Projects

Medellín, Colombia	*Air quality, public health, transport, green space*	
Beirut, Lebanon	*Green space, urban health, pedestrian and cycling routes*	
Western Cape, South Africa	*Water supply, energy transition*	
Norfolk & Suffolk, UK	*Net positive energy buildings & public health*	

#roadmap2030
**http://ecosequestrust.org/roadmap2030.pdf**

- Enabling environment to create smart partnerships between national and municipal government, civil society, academia, faiths and the private sector
- How to implement the urban agenda
- Addresses 16 cross-cutting themes in an integrated approach

Current approach

Development   **Planning**   **Design**

Economic

Environmental

Social

CHEER systems health approach

Increasing investment and shared stakeholder value through interactive design, systems thinking and collaborative urban-rural approaches

Economic

Environmental

Social

Design

Planning

Development

Increased value through performance / Outcomes focus

#ACTonNBS

Nature Based Solutions

Cooling, cleaner air and water, better health and well-being, cheaper infrastructure, lower flood risk , lower greenhouse gas emissions
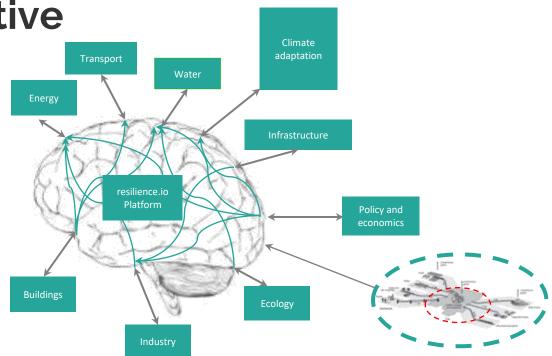

Regional Collective Intelligence

Decision making around value

Implementation

Collaboratory maturity

- X sector champions

- Data audit and integration methodology

- Co-development

- Capacity building

- Evolve and embed

The system of community life

Data brokering approach - a change in paradigm

Interoperability through mediation -

System of systems integration, linking complex and heterogeneous systems by building bridges between existing network platforms and systems infrastructures.
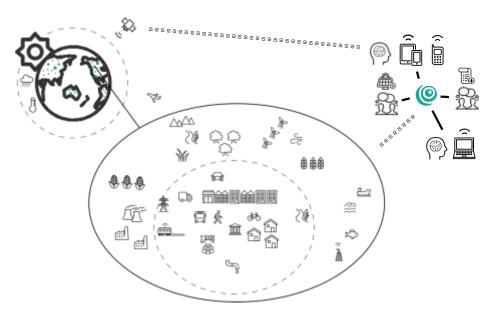

Geo-locate flows, infrastructure - ML

Data-brokering infrastructure enables access to and interoperability with a wide variety of data sources:

- geo-locational data and from Earth observations;
- open datasets across scales (e.g., local, regional);
- proprietary data sets;
- ground-based sensors;
- crowdsourced data.

Decisions - Investment in infrastructure

- Energy, Water, Transport, Housing, …
- Local, foreign, government, private, …

Decisions - Market Policies and planning

- Taxation, tariffs, quota, subsidies, …
- Land use plans, regulations, …

Indicator outcome range (5-20 years)

- Sector resource and energy flows
- Effects on imports & exports
- Wastes & Emissions (CO_2, CH_4,…)
- Employment, income, in(equality)
- Human well-being indicators
- Sector economic activity / GDP
- Access to service / %

- Technology options
- Proposed locations
- Market rules and regulation

Key performance
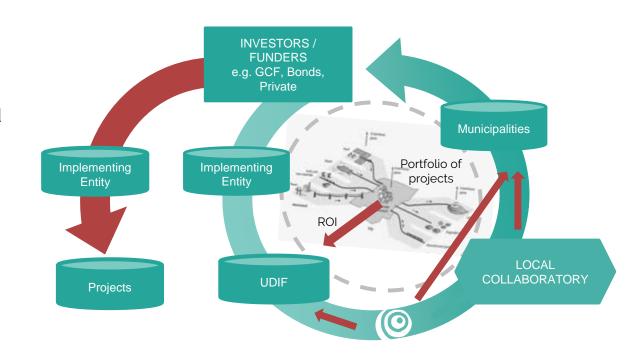

Policy & Investment Decisions

Urban Development Investment Funds

Smart selection of projects and improved design, planning and maintenance can **reduce finance demand by 40%**

This is the Resilience Dividend that resilience.io can unlock the value in design led, collaborative decision making!

LOCAL COLLABORATORY

Bringing forward the Roadmap 2030 CHEER approach to establish regional collaborative laboratories in sacred cities to rapidly scale up FaithInvest

THE ZUG GUIDELINES to faith-consistent investing

FAITH IN FINANCE

What do you do with your wealth to make a better planet?

Smart. Green. Innovative.

resilience.io platform use cases

Greater Accra, Ghana	Water supply, sanitation and accessibility	
Hunter Valley, Australia	Water infrastructure, energy transition, institutional resilience	
Union Canal, Scotland, UK	Water supply, sanitation and accessibility	
Anninghe, Sichuan, China	Integrated multi-hazard modelling	
Queen Elizabeth Olympic Park, London, UK	Digital and social inclusion, green space accessibility	

Additional Resilience Brokers Projects

Medellín, Colombia	Air quality, public health, transport, green space
Beirut, Lebanon	Green space, urban health, pedestrian and cycling routes
Western Cape, South Africa	Water supply, energy transition
Norfolk & Suffolk, UK	Net positive energy buildings & public health

resilience brokers

Helping cities on their learning journey of transformational change

EMBEDDING
Systems thinking to support planning and investment decisions. Scaling the approach to maximise value creation and accelerate sustainable performance

PROTOTYPING
Demonstrating solutions to region-specific challenges. Embedding learnings and building momentum

ONBOARDING
Exploring topics and securing buy-in with key stakeholders

➔ Up to 40% saving in total infrastructure investment

➔ Multi-hazard risk reduction

➔ Regional shift towards sustainable & resilient performance
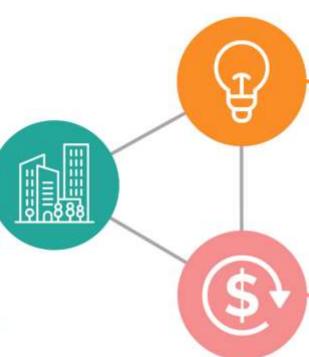

➔ Support the delivery of the Global Goals

Resilience Brokers Network

Connecting global and local
expertise, effective solutions and
sources of funding to deliver systems
solutions to
region-specific challenges

**Brokering technology and
innovations to scale
up solutions that can
have systemic impact**

- Effective technologies
- Innovative solutions
  and transformational
  business models

**Working with cities to
embed systems thinking
into policy, urban planning
and design processes**

- Urban planning &
  design practitioners
- Sustainability champions
- Policy makers
- Utilities

**Connecting investors
with a growing pipeline of
risk-assessed, investable
infrastructure projects**

- Project finance
- Social impact
- Climate and green bonds
