Barrio Resiliente: Resilient Cities through Resilient Communities

Bernard McCaul
LAC Regional Director and Americas Strategic Partnerships Coordinator, GOAL Global
June 28, 2019
Youth: Achieving Together
Improved social cohesion, leadership and volunteering of children and youth through neighborhood disaster risk reduction related art and actions

Early Warning System
Safeguard human lives through

Social Housing
Families with incomes under 2 minimum wages access social interest housing (new construction and / or improvement)

Provision of Basic Food Supply
Resilient businesses continue to offer critical services during emergencies.

Provision and maintenance of drainages
Increase access to drainage as a measure to reduce risks in developing neighborhoods
Achieving Urban Resilience starts with multilevel neighborhood governance.

Social & Behavioral Change

Promote on-time payment within beneficiaries. With their payment, Water Administration Boards (JAA) can invest in piping maintenance and water gutters.

On time water service payment.
